GRAND FINALE

Idea Submission Process

Round 1 · 1 Aug – 11 Aug 2026 · oscode.co.in

HOW TO SUBMIT

1

Team Leader Registers & Invites

Team leader creates the team and enters each member's email in the "Invite" field on the OSCode platform.

oscode.co.in/events/decode-sih-2026

2

Members Join via Team Code

Each invited member receives an email with a unique Team Code (e.g. ABCXYZ) and joins the team by entering it.

Min. 3 members required to submit

3

Fill the Ideation PPT Template

Use the official Decode SIH 2026 Ideation PPT — structure your idea, define the problem, and present your solution.

canva.link/oscode-decode-sih-2026-ideation-ppt-template

4

Only 1 Member Submits for the Team

The team leader clicks Submit on the event page, gives the entry a title, and starts the submission — only one person needed!

• [Submission Live Now](#)

KEY RULES & ELIGIBILITY

▲ IMPORTANT RULES

Only 1 person from each team needs to submit the idea — the Team Leader does it.

Minimum 3 members required in your team to be eligible for idea submission.

At least 1 female member is mandatory in every team — no exceptions.

Same institute only — inter-college teams are not permitted.

TEAM SIZE & ELIGIBILITY

3–6 members per team (min 3, max 6)

UG, PG & Diploma students — all branches welcome

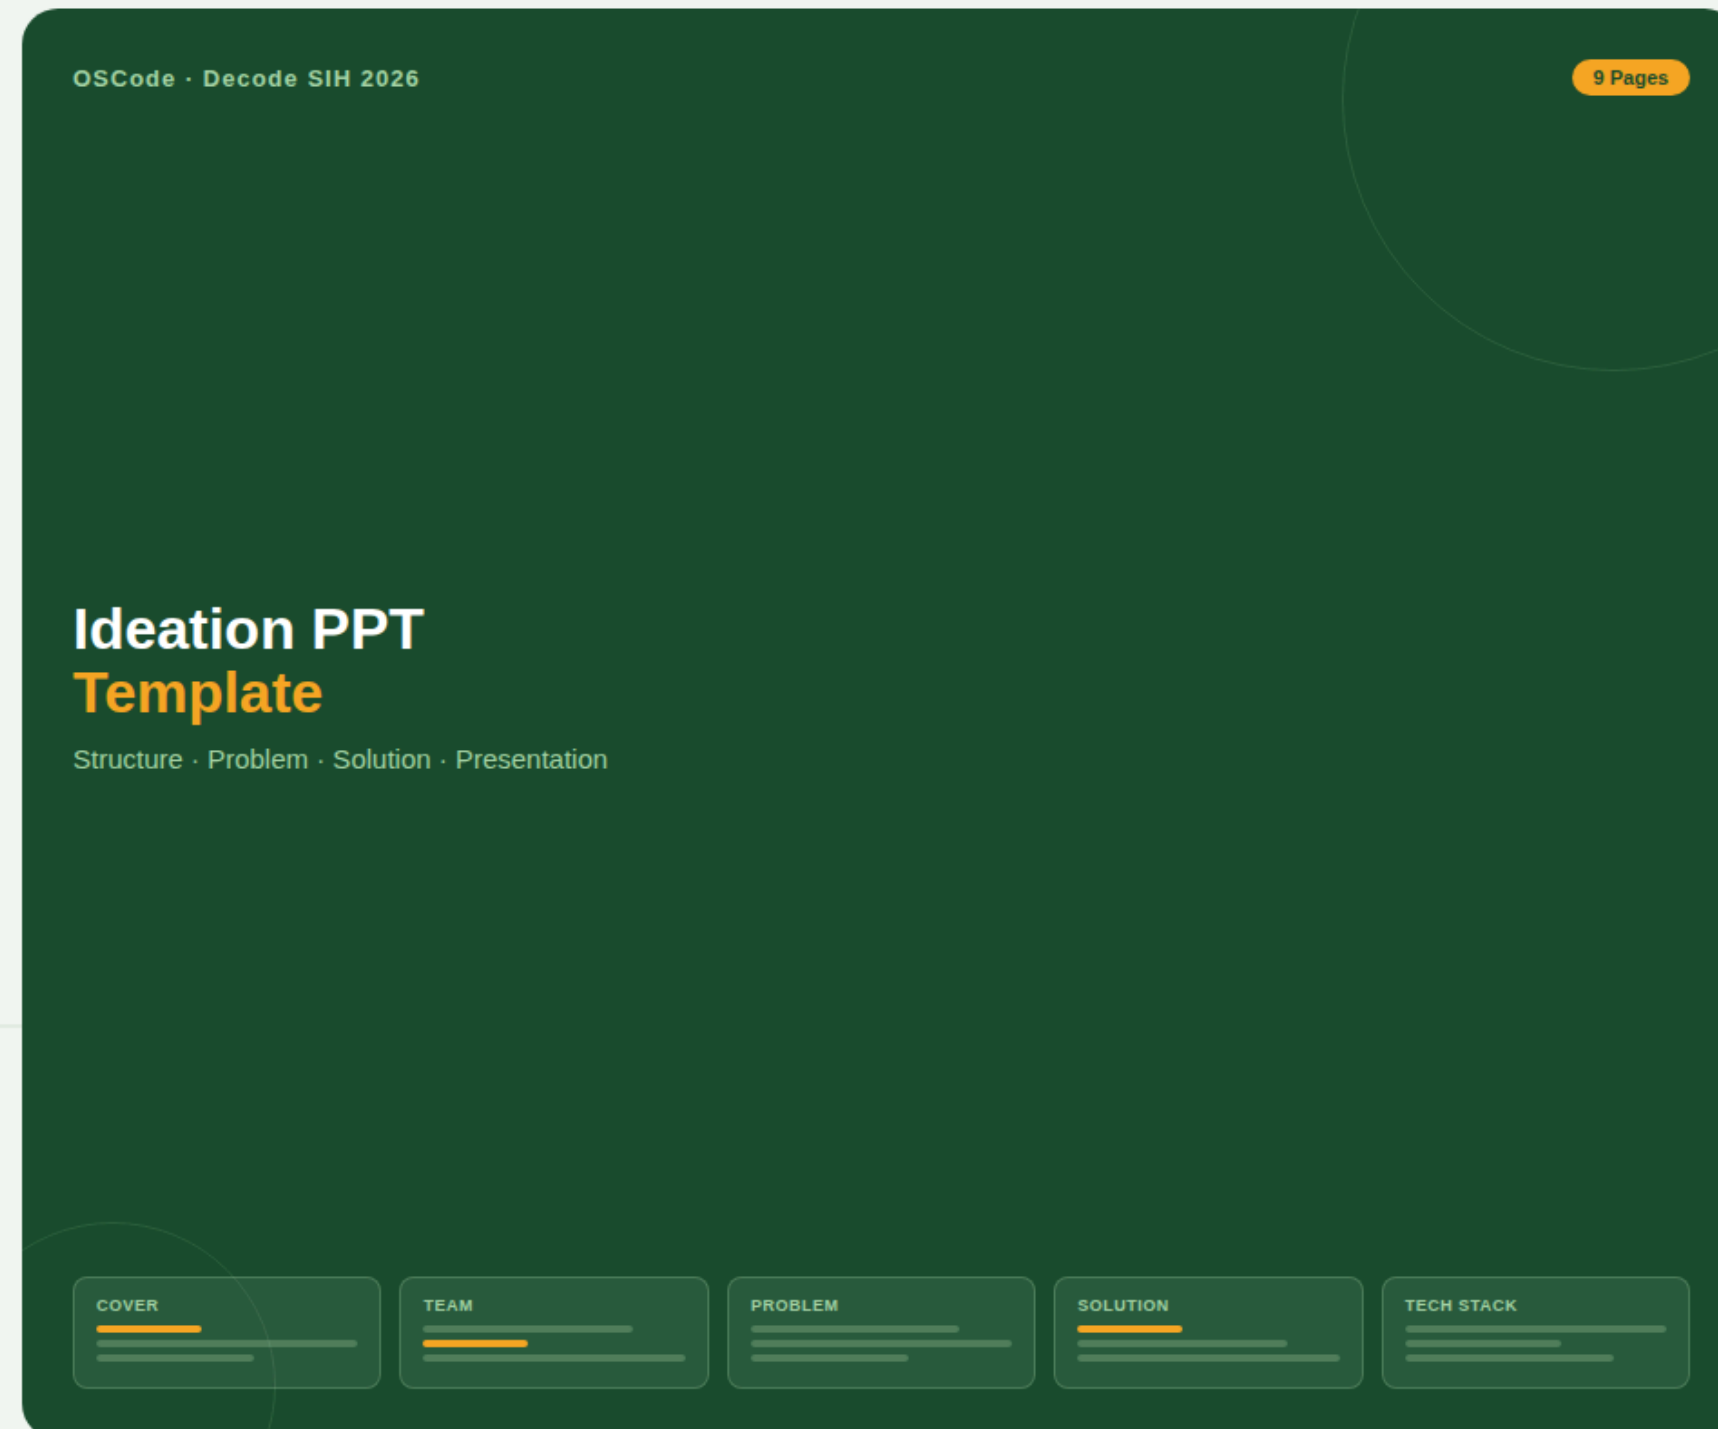

Different years/branches from the **same college** allowed

Ideation PPT Template

Use the official template to structure and submit your idea

OFFICIAL TEMPLATE

SUBMISSION GUIDELINES

REQUIRED

Submit your idea using this template only — no other format accepted

FIRST STEP

Make a copy of this template before you start filling it in

DO NOT

Do not modify the structure of the template — keep the slides as-is

ALLOWED

Feel free to add more pages if your idea needs more space

ALLOWED

You can extend headings as needed when presenting your proposed solution

Evaluation Criteria

How your ideation PPT will be judged · MIC / AICTE Standard Rubric

Ministry of Education's Innovation Cell
Smart India Hackathon 2026 · Idea Evaluation Rubric

Novelty

How unique and original is your idea? Does it go beyond existing solutions or basic replications?

Technical Complexity

Depth and robustness of your proposed architecture — not just a college-level prototype

Clarity & Format

Logical flow, precise descriptions, and structured adherence to the official PPT template

Feasibility

Are your tech stack choices sound? Can your team realistically build this in the given time?

Practicability

Real-world applicability — can it handle actual field constraints and operate in production?

Sustainability

Long-term viability — can it sustain against competition and maintain itself post-launch?

Scale of Impact

Breadth and depth of positive change delivered for the target users or problem statement

User Experience

Design intuitiveness, ease of navigation, and operational convenience for the end user

Future Progression

Scalability roadmap, commercialisation potential, and post-hackathon business models
